15+ years of technical writing, illustration, and document management in sporting goods, aerospace, and IT organizations.

CORE SKILLS

- Expert-level ability in Adobe InDesign, Illustrator, Photoshop, and Acrobat.
- Hand drawn and 3d rendered illustrations, diagrams, and page layout for manuals and marketing materials.
- Technical document creation: user guides, installation guides, release notes, service manuals, governance and policy documentation, and internal reference materials.
- Microsoft Word style guide and template creation.
- Jira, Confluence, and SharePoint enterprise platforms.
- PTC Creo Illustrate and Windchill PLM
- Autodesk Fusion

PROFESSIONAL EXPERIENCE

Contract Technical Writer, TEKSystems

March 2025 - March 2026

Assigned to El Paso County, Colorado Information Technology Department

- Lead technical writer for a team that produced 250+ governance documents, configuration standards, and IT runbooks within a 6 month engagement.
- Contract was extended by 6 months into a supporting role for the Information Security team, performing AI security assessments and additional governance documentation for the department.
- Contributed to building a department wide automated annual review process and an online dashboard to track overdue document reviews, and wrote the instructional materials for the review process and dashboard.
- Authored an official document review runbook defining roles and responsibilities across reviewing parties, improving consistency and quality of department documentation.
- Provided ongoing SharePoint maintenance and document organization for the department's knowledge base.

Senior Technical Writer, AMERGINT Technologies

March 2024 - October 2024

- Captured, edited, and inserted satellite communication UI screenshots into user manuals, installation guides, and release notes for software products, working closely with subject matter experts to verify technical accuracy.

SRAM, LLC

May 2007 - February 2024

Senior Technical Writer (July 2012-February 2024) | Technical Writer (May 2007 - June 2012)

- Wrote and illustrated user and service manuals for mechanical, electrical, and software-integrated products.
- Interviewed engineers to document components with significant safety constraints, including high-pressure suspension and hydraulic brakes.
- Designed custom Photoshop Actions to automate repetitive image processing.
- Owned SRAM's documentation Style Guide and built standardized templates for its core document types, ensuring consistency across a high-volume publishing program.
- Directed migration of service documentation from print/ship to a web-native platform on Contentful's CMS, designing the wireframes and document hierarchy with IT developers.
- Developed and rolled out Adobe Acrobat shared-review training after identifying the need for a consistent review workflow across all SRAM locations; the process was later adopted company-wide.
- Responsible for new team member onboarding and ongoing training for software, style, and documentation best-practices.

Director of Visualization, CSNA Architects

September 2005 to April 2007

- Created 3D models, animations, and marketing materials for design presentations.
- Led 3D modeling efforts for a regional American Institute of Architects (AIA) city planning initiative.

EDUCATION

Bachelor of Fine Arts (BFA), Computer Animation - Missouri State University

VOLUNTEERING

Bluebird Monitoring and Wildlife Transportation, Colorado Parks and Wildlife

February 2026 to Present

- Monitor bluebird nest boxes and provide injured wildlife transport for Colorado Parks and Wildlife.
